1. Introduction

The Green Leaf Bakery Management System is a Java-based desktop application developed to simplify the daily operations of a bakery. The system enables users to manage customer information, bakery products, orders, deliveries, and employee details through an easy-to-use graphical user interface. It improves efficiency by reducing manual work and organizing business data in a structured manner.

2. Purpose

The purpose of this user manual is to provide users with clear instructions on how to install, operate, and maintain the Green Leaf Bakery Management System. It serves as a guide for both new and existing users, ensuring they can perform system functions accurately and efficiently.

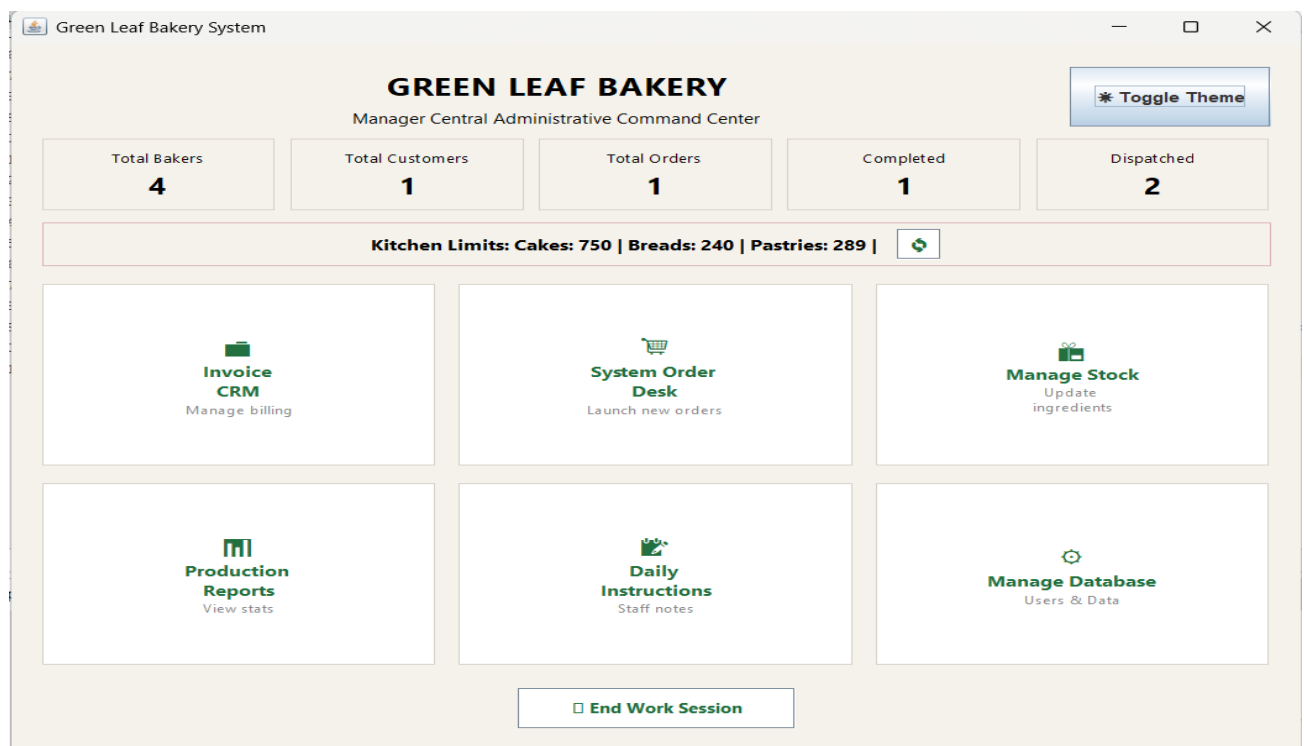

3. Scope

This manual covers all major functions of the Green Leaf Bakery Management System, including user login, customer management, product management, order processing, delivery management, employee management, and report generation. It also includes installation instructions, troubleshooting guidance, and frequently asked questions.

4. Intended Users

The system is designed for bakery managers, employees, and other authorized users. Each user can access different features based on their role within the bakery. This manual is intended to help all users understand the system's functionality regardless of their technical knowledge.

5. System Requirements

The Green Leaf Bakery Management System requires a computer running Windows with Java Development Kit (JDK) installed. The application is developed using NetBeans IDE and stores data in text files. A minimum of 4 GB RAM and 500 MB of free disk space is recommended for smooth operation.

6. Installation Guide

To install the system, extract the project files and open the project using NetBeans IDE. Ensure that the correct version of the Java Development Kit is installed. Build and run the project from NetBeans. Once the application starts successfully, users can access the system through the login interface.

6. Signup Module

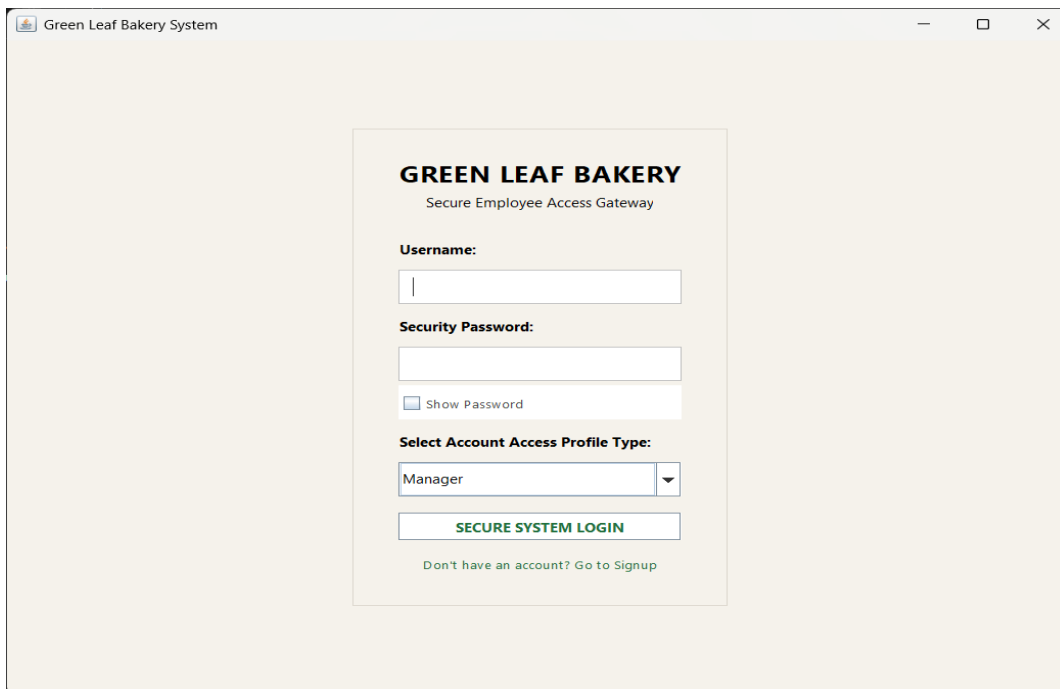

- **Baker Signup Module**

Overview

The Baker Signup Module allows new bakers to register themselves in the Green Leaf Bakery Management System. During registration, the baker provides personal and login information, which is securely stored in the system. Once the registration is successful, the baker can log in using the registered username and password to access the features assigned to the baker role.

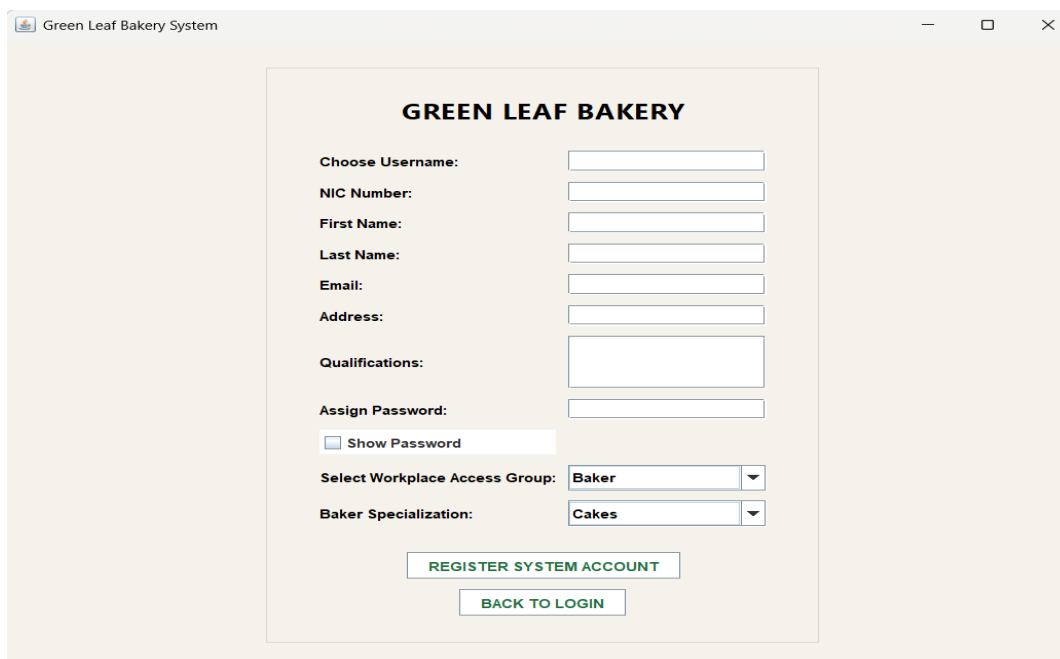

Steps to Register a Baker

1. Open the Green Leaf Bakery Management System.

The screenshot shows a web browser window titled "Green Leaf Bakery System". The main content area has a light beige background. In the center, there is a white box with a thin border containing the following elements: the title "GREEN LEAF BAKERY" in bold, the subtitle "Secure Employee Access Gateway", a "Username:" label followed by a text input field, a "Security Password:" label followed by a password input field and a "Show Password" checkbox, a "Select Account Access Profile Type:" label followed by a dropdown menu with "Manager" selected, a green "SECURE SYSTEM LOGIN" button, and a link "Don't have an account? Go to Signup" in green text.

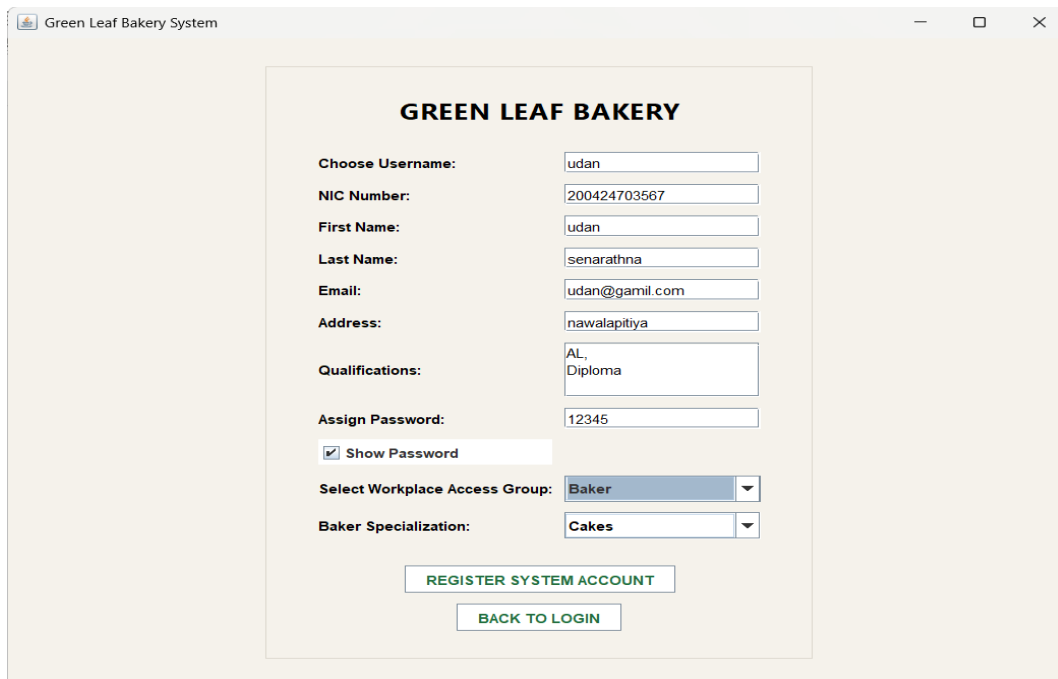

2. Navigate to the **Baker Signup** page.

The screenshot shows a web browser window titled "Green Leaf Bakery System". The main content area has a light beige background. In the center, there is a white box with a thin border containing the following elements: the title "GREEN LEAF BAKERY", a "Choose Username:" label followed by a text input field, a "NIC Number:" label followed by a text input field, a "First Name:" label followed by a text input field, a "Last Name:" label followed by a text input field, an "Email:" label followed by a text input field, an "Address:" label followed by a text input field, a "Qualifications:" label followed by a text input field, an "Assign Password:" label followed by a password input field and a "Show Password" checkbox, a "Select Workplace Access Group:" label followed by a dropdown menu with "Baker" selected, a "Baker Specialization:" label followed by a dropdown menu with "Cakes" selected, a green "REGISTER SYSTEM ACCOUNT" button, and a green "BACK TO LOGIN" button.

3. Enter the required details:

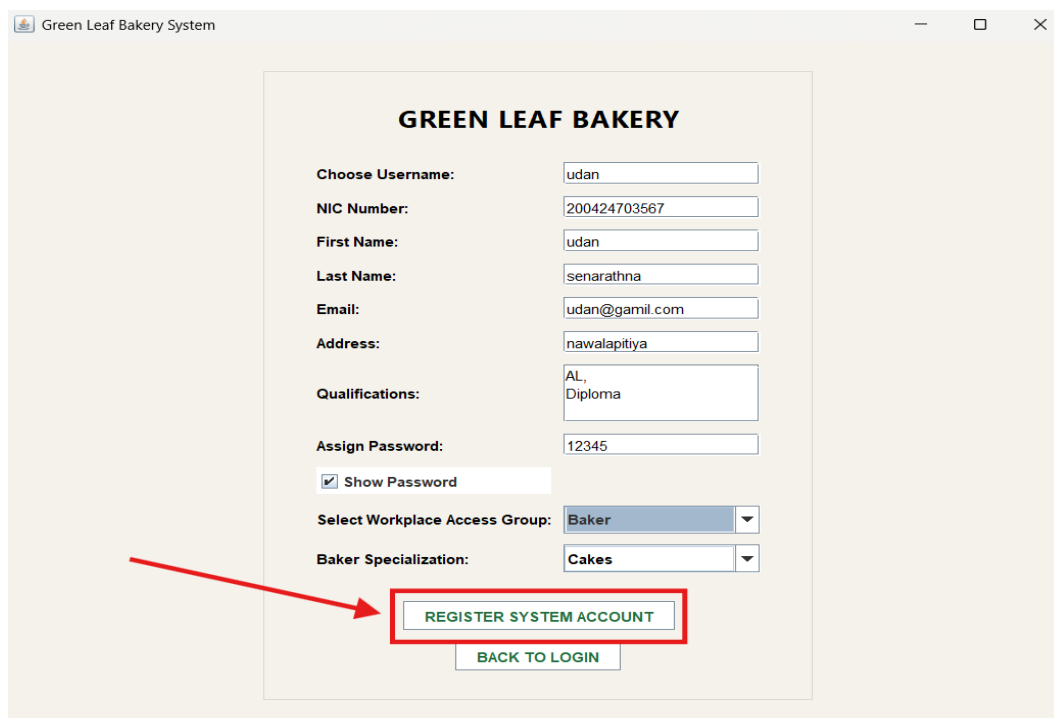

- Baker ID
- Full Name
- Username
- Password
- Contact Number
- Email Address
- Address

The screenshot shows a web application window titled "Green Leaf Bakery System". Inside, there is a registration form titled "GREEN LEAF BAKERY". The form contains the following fields and controls:

- Choose Username:** Text input with value "udan".
- NIC Number:** Text input with value "200424703567".
- First Name:** Text input with value "udan".
- Last Name:** Text input with value "senarathna".
- Email:** Text input with value "udan@gamil.com".
- Address:** Text input with value "nawalapitiya".
- Qualifications:** Text input with value "AL, Diploma".
- Assign Password:** Text input with value "12345".
- ☒ **Show Password** checkbox.
- Select Workplace Access Group:** Dropdown menu with "Baker" selected.
- Baker Specialization:** Dropdown menu with "Cakes" selected.
- REGISTER SYSTEM ACCOUNT** button.
- BACK TO LOGIN** button.

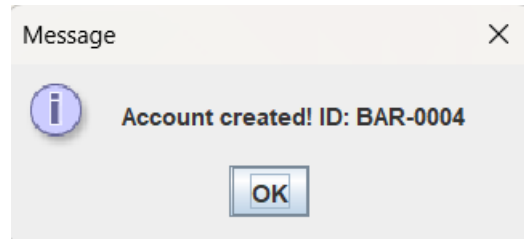

4. Click the **Register** or **Sign Up** button.

This screenshot is identical to the previous one, but with a red arrow pointing to the "REGISTER SYSTEM ACCOUNT" button, which is also enclosed in a red rectangular box. The button is located at the bottom of the form, above the "BACK TO LOGIN" button.

5. The system validates the entered information.

6. If all details are valid, a confirmation message is displayed and the baker account is successfully created.

7. The baker can now log in using the registered credentials.

Expected Outcome

After successful registration, the baker's information is stored in the system, and the user is granted access to the Baker Dashboard after logging in.

• Manager Signup Module

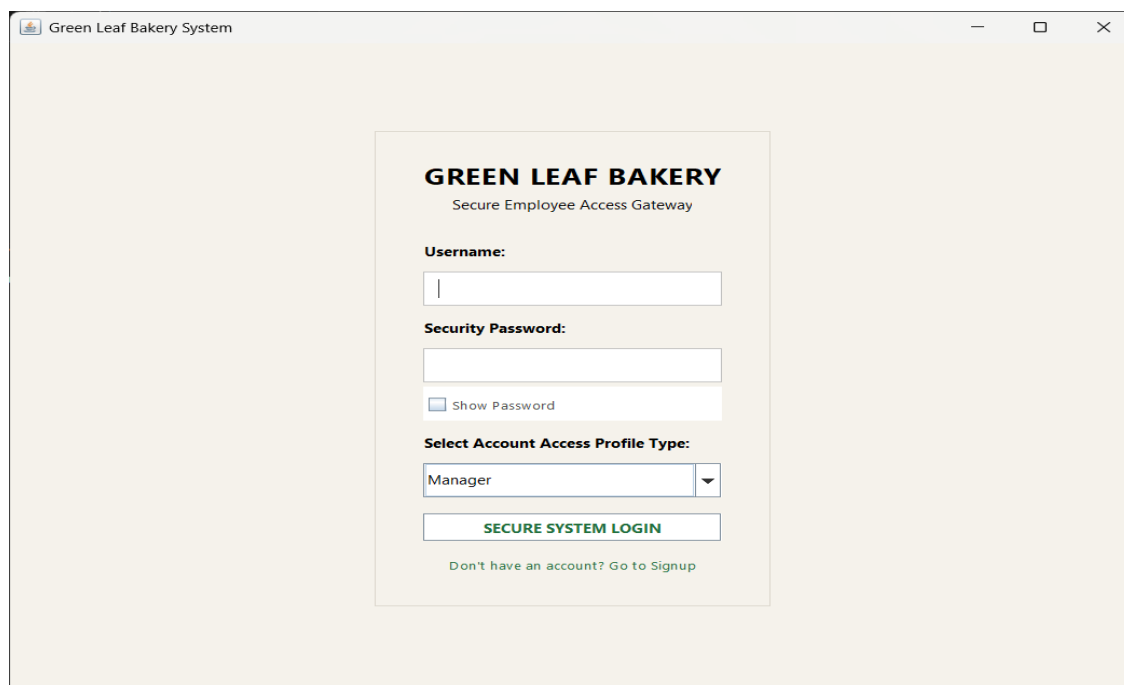

Overview

There is only one manager signup in this system. Therefore, if the manager is registered, there is no need for another manager signup in this system. We did this because of security issues.

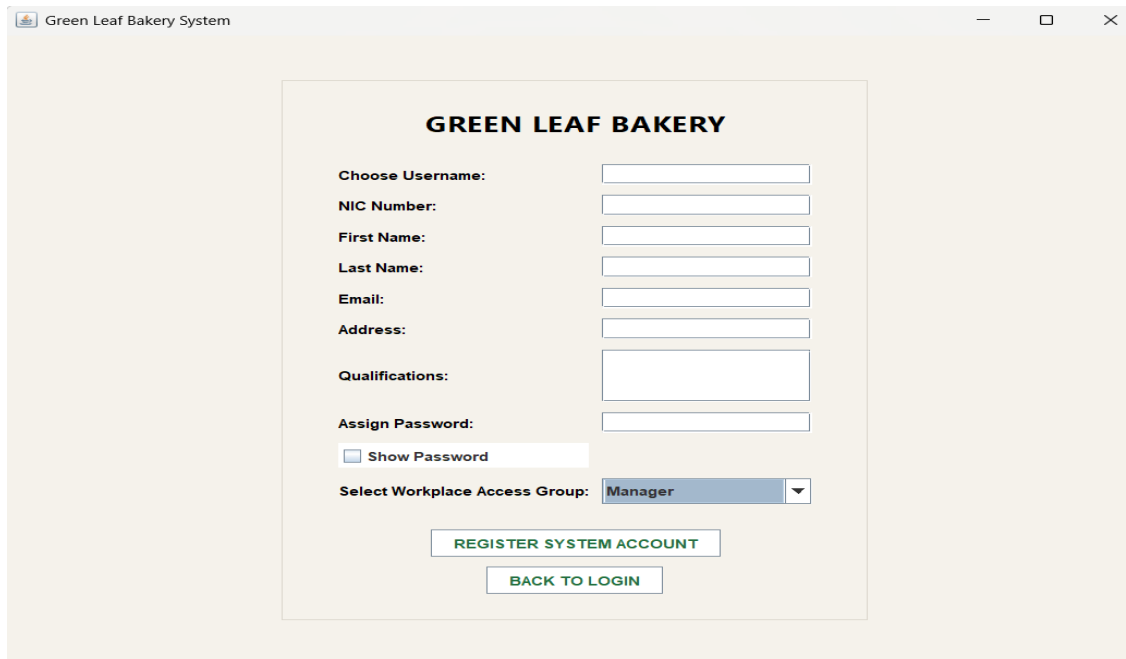

The Manager Signup Module enables authorized individuals to create a manager account within the Green Leaf Bakery Management System. The module collects the manager's personal and login information and stores it securely. After registration, managers can log in and access administrative functions such as managing employees, products, orders, and reports.

Steps to Register a Manager

- I. Launch the Green Leaf Bakery Management System.

II. Open the **Manager Signup** page.

BACK TO LOGIN

IV. Click the **Register** or **Sign Up** button.

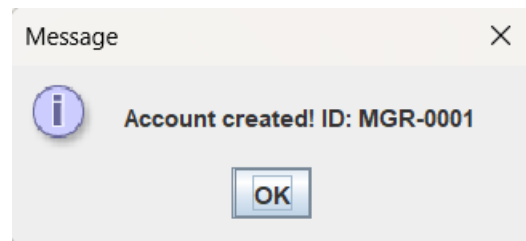

The screenshot shows a web application window titled "Green Leaf Bakery System". Inside, there is a registration form titled "GREEN LEAF BAKERY". The form contains the following fields and values:

Field	Value
Choose Username:	boss
NIC Number:	200424703567
First Name:	udan
Last Name:	senarathna
Email:	udan@gamil.com
Address:	nawalapitiya
Qualifications:	O/L, A/L, BScSe
Assign Password:	12345
Show Password:	☒
Select Workplace Access Group:	Manager

At the bottom of the form, there are two buttons: "REGISTER SYSTEM ACCOUNT" (highlighted with a red box and a red arrow) and "BACK TO LOGIN".

V. The system validates all required fields.

VI. If the entered information is correct, the manager account is successfully created.

VII. The manager can now log in using the registered username and password.

Expected Outcome

he manager's details are saved successfully, and the newly registered manager is able to access the Manager Dashboard after authentication.

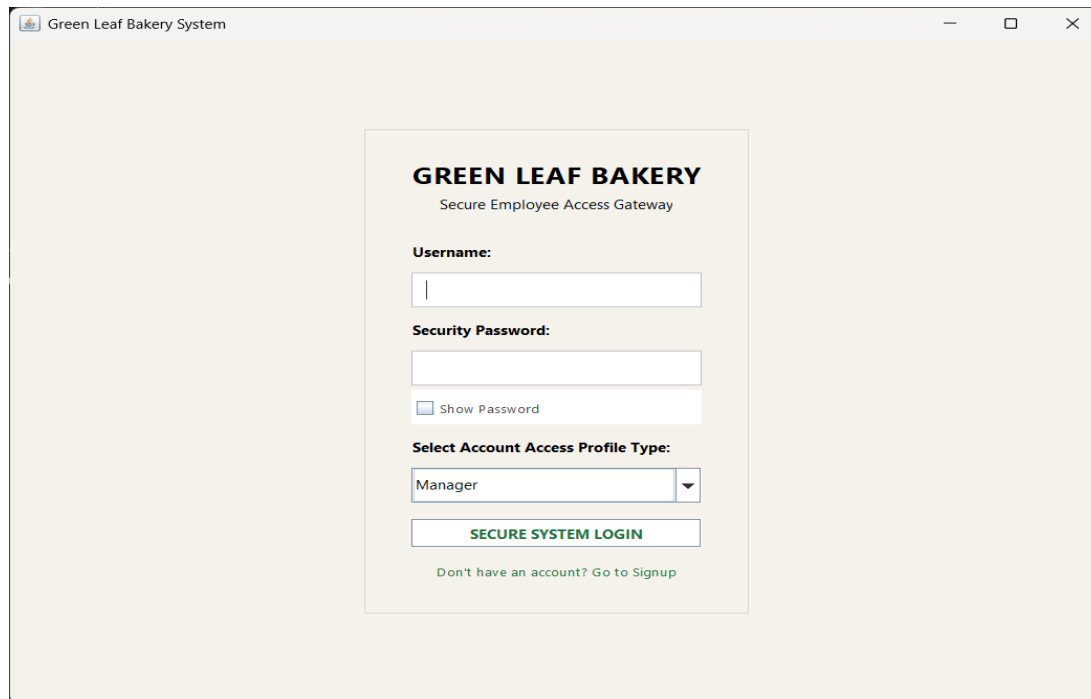

7. Login Module

The login module provides secure access to the system by verifying the user's credentials. Users must enter a valid username and password before accessing the available features. Incorrect login information will result in an error message, preventing unauthorized access.

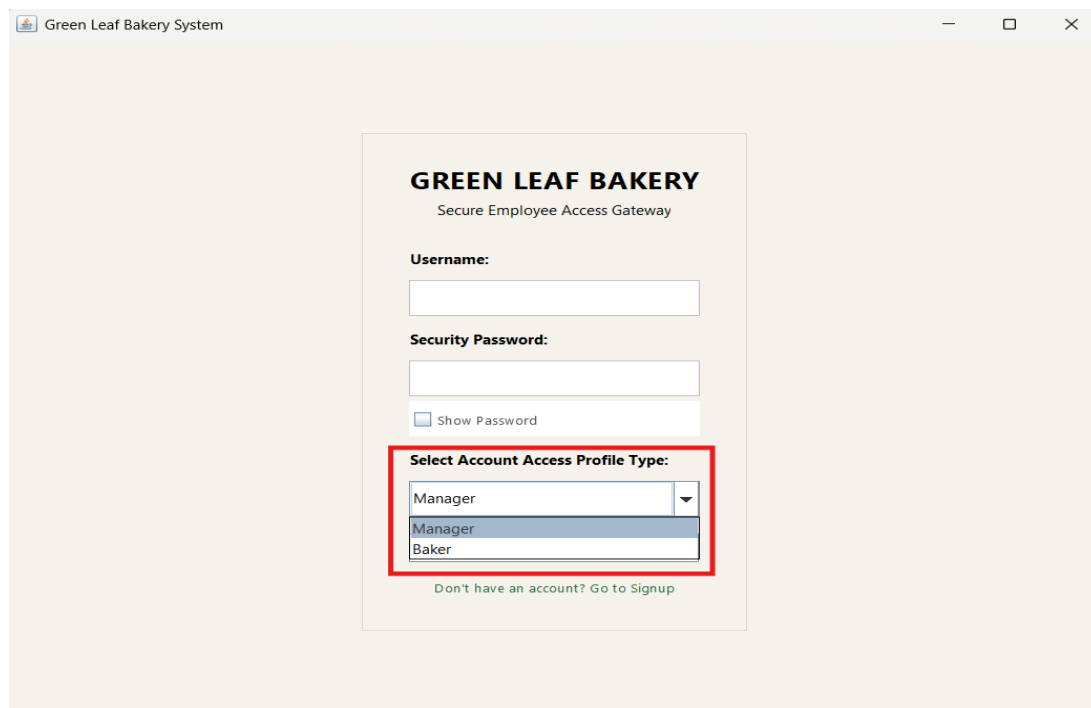

- **Manager Login**

Step to Manager login

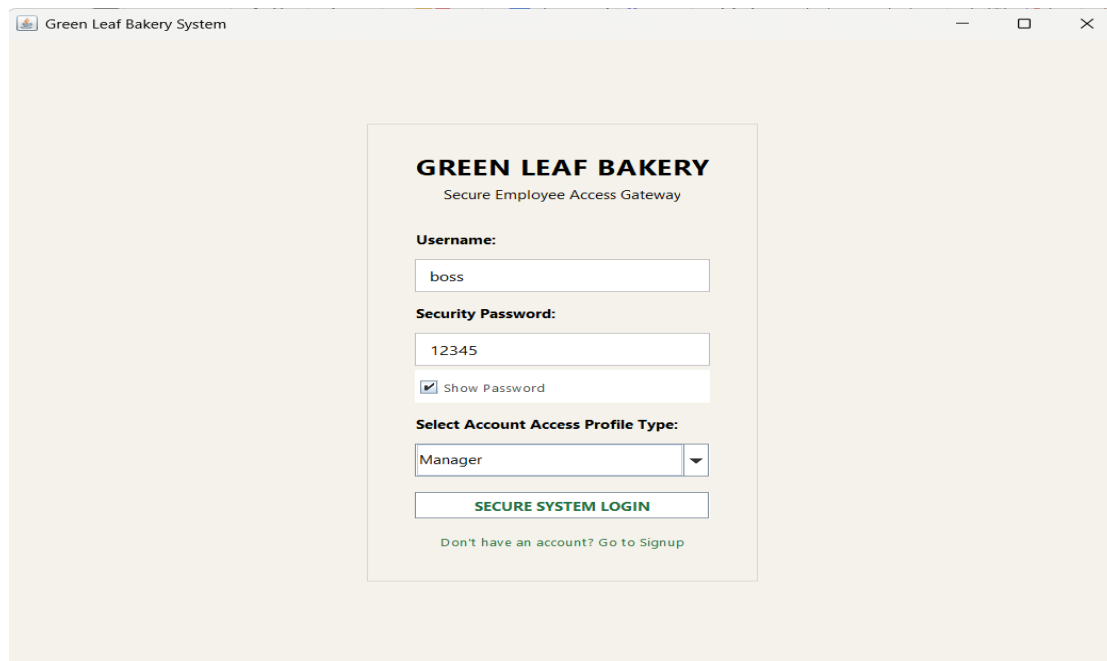

1. Open the Green Leaf Bakery Management System.

2. Select the profile type in to Manager in **Select Account Access Profile Type**

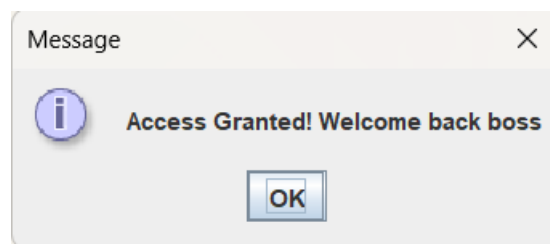

3. Type account user name and password

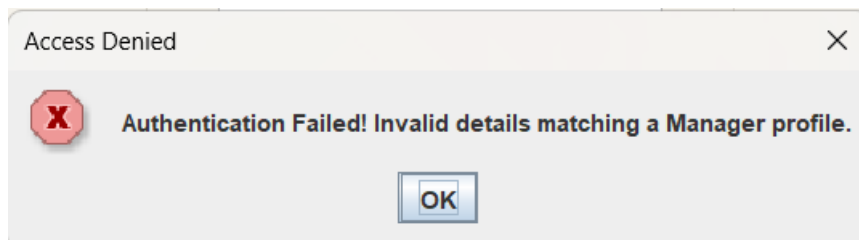

The screenshot shows a web application window titled "Green Leaf Bakery System". The main content area has a light beige background. In the center, there is a white rectangular box containing the login form. At the top of this box, it says "GREEN LEAF BAKERY" in bold, followed by "Secure Employee Access Gateway" in a smaller font. Below this, there are three sections: "Username:" with a text input field containing "boss"; "Security Password:" with a text input field containing "12345" and a checkbox labeled "Show Password" which is checked; and "Select Account Access Profile Type:" with a dropdown menu showing "Manager". At the bottom of the box is a green button labeled "SECURE SYSTEM LOGIN" and a link that says "Don't have an account? Go to Signup".

4. Click the **SECURE SYSTEM LOGIN**.

- If data is valid you can login. System show a message as well.

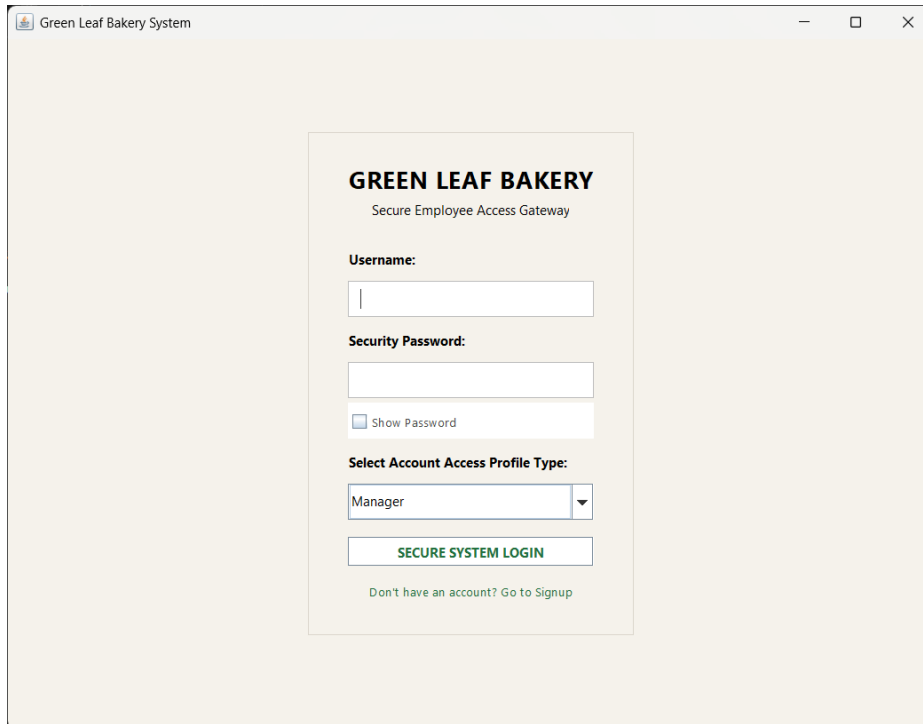

- If data is invalid system show a error message.

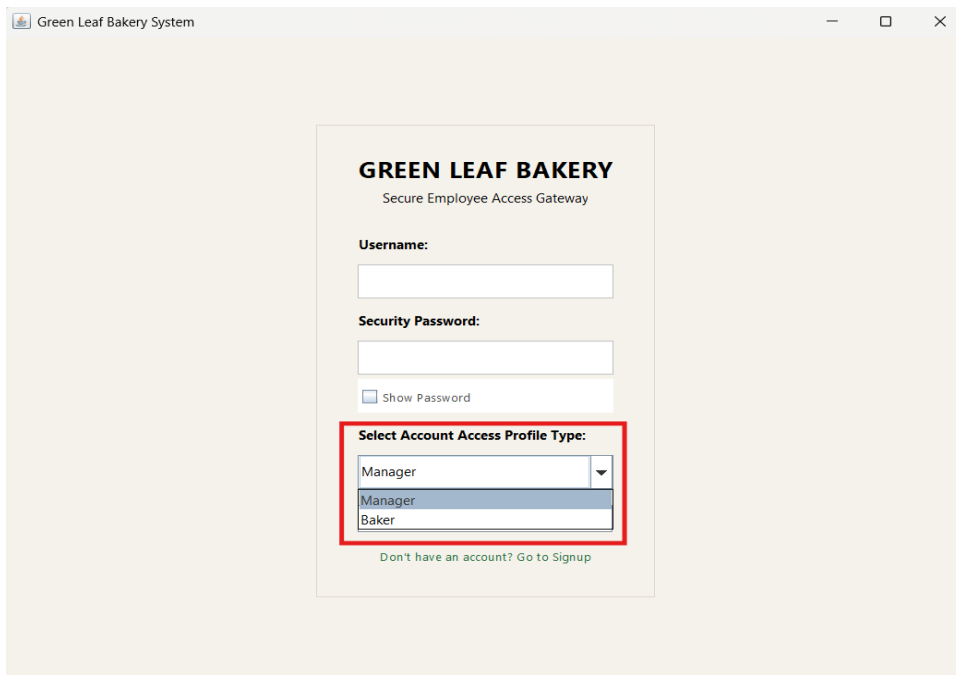

- **Baker Login**

Step to Baker login

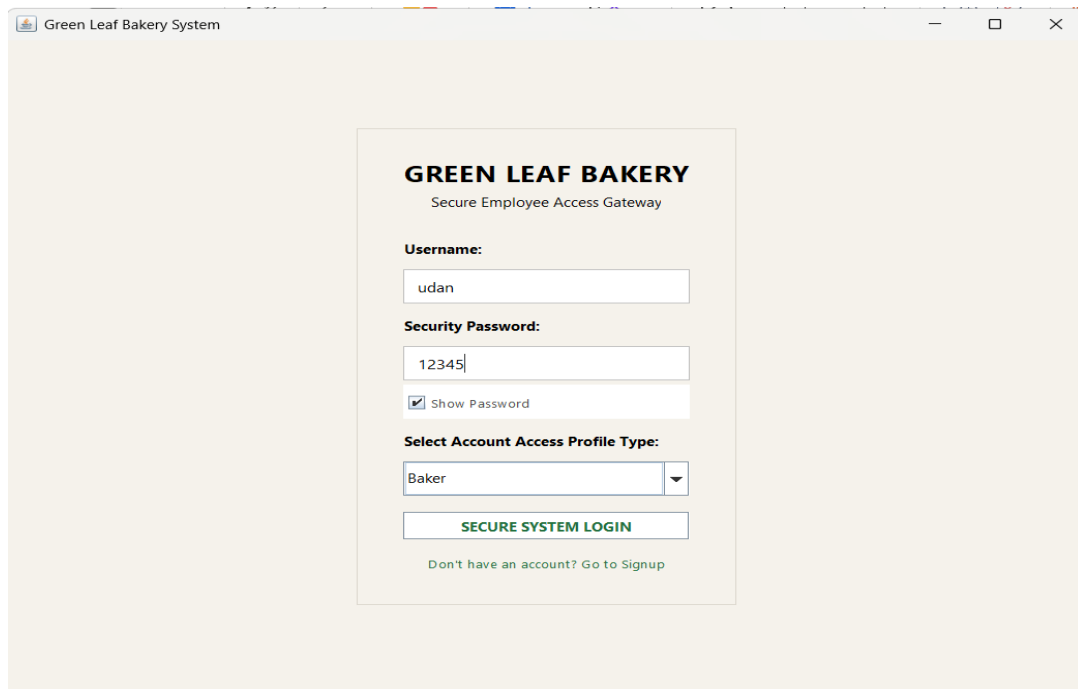

1. Open the Green Leaf Bakery Management System.

2. Select the profile type in to Manager in **Select Account Access Profile Type**

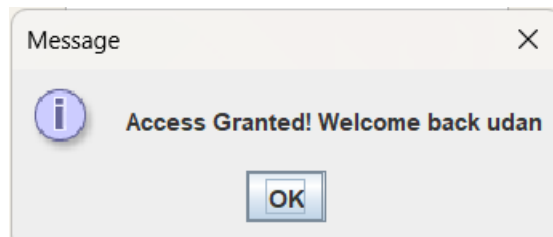

3. Type account user name and password

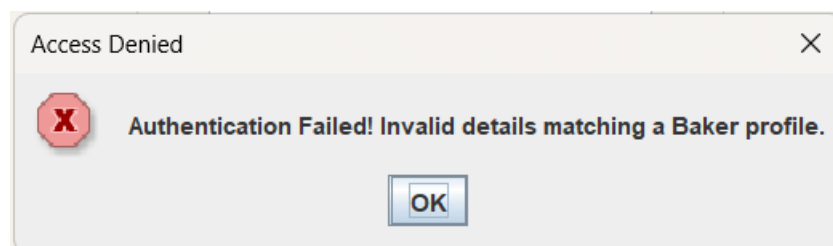

4. Click the **SECURE SYSTEM LOGIN**.

- If data is valid you can login. System show a message as well.

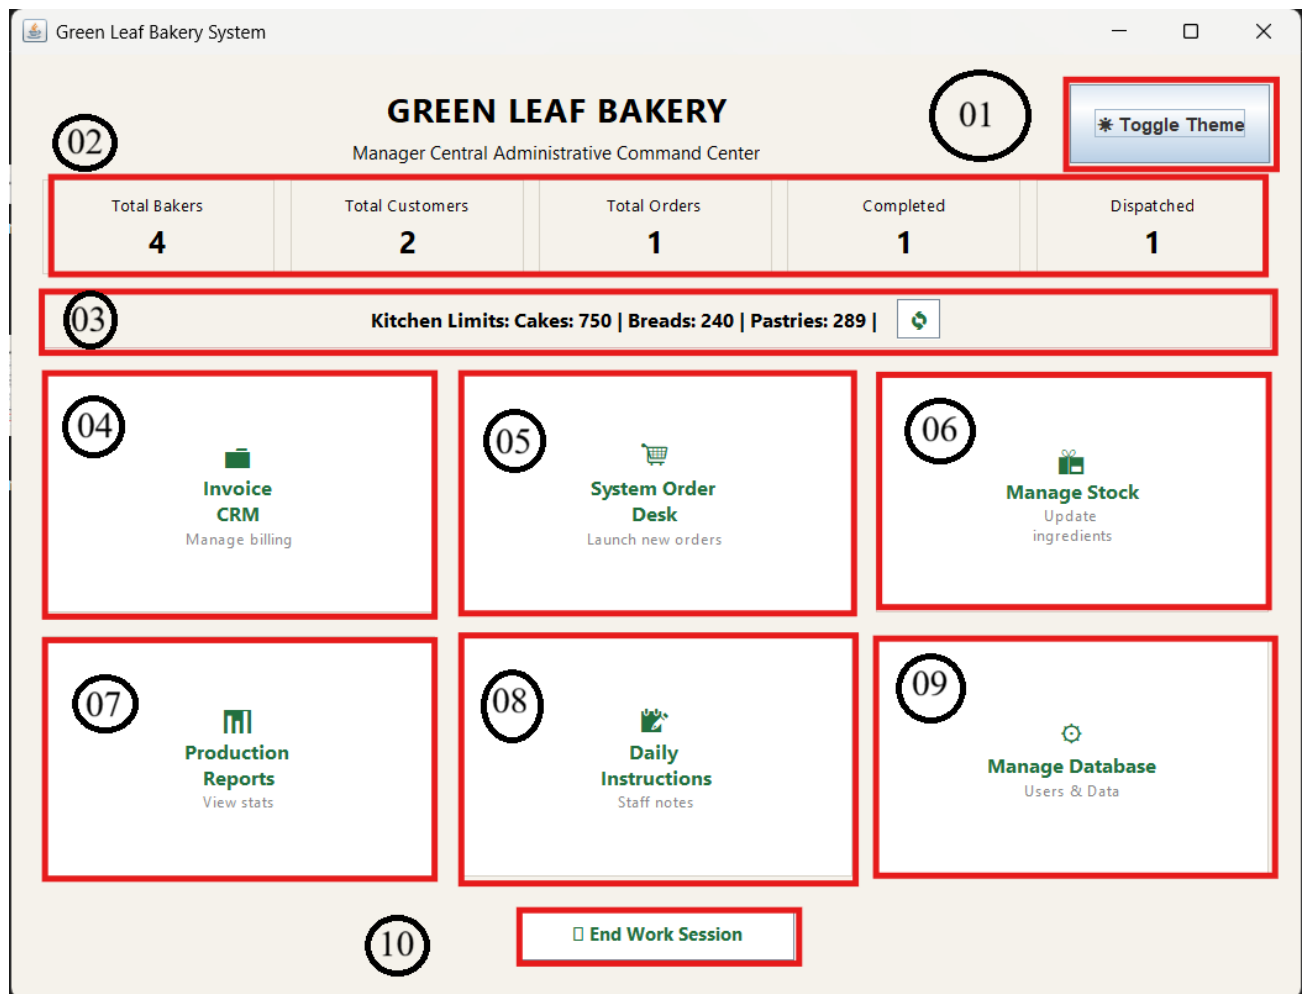

- If data is invalid system show a error message.

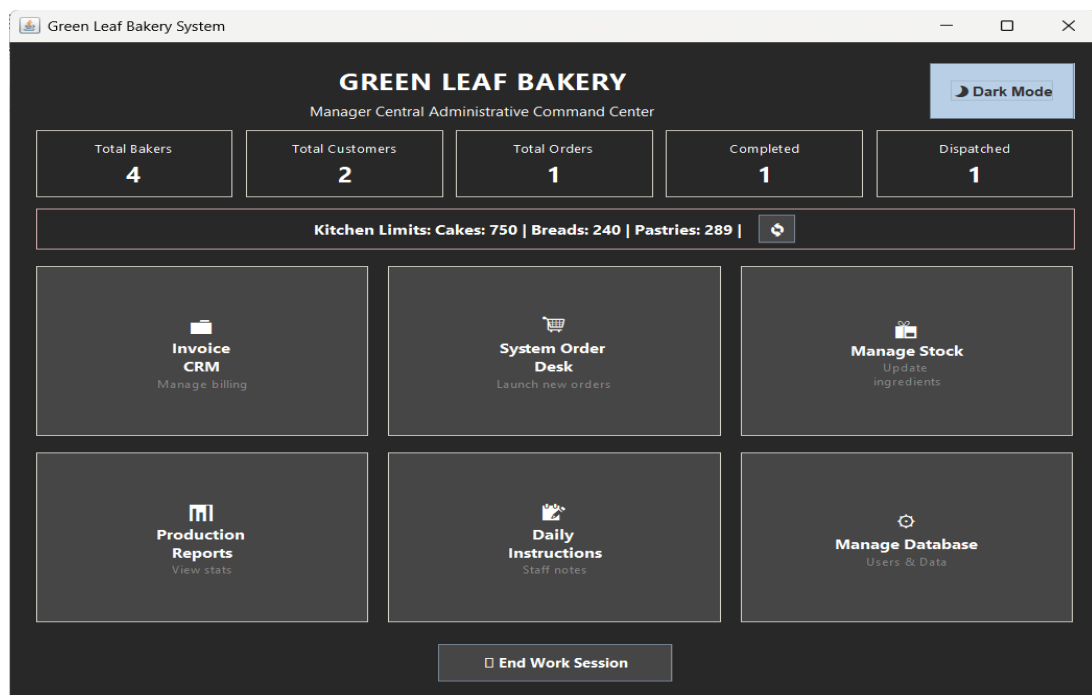

8. Manager Dash Board

This is the place that manage the all administration work in the Green Leaf Bakery Management System.

01.Toggle Theme

Manager can easily change the system theme by clicking this button. If manager click this button the system automatically change the theme into **dark mode**.

02. Operation Showing Panel

Total Bakers	Total Customers	Total Orders	Completed	Dispatched
4	2	1	1	1

This panel shows

- How many Registered Bakers in the Bakery
- How many Registered Customers in the Bakery
- Total Orders
- How many Complete Orders
- How many Dispatched Orders

If anything change in the txt files this section will automatically updated.

03. Kitchen Item Limitation Panel

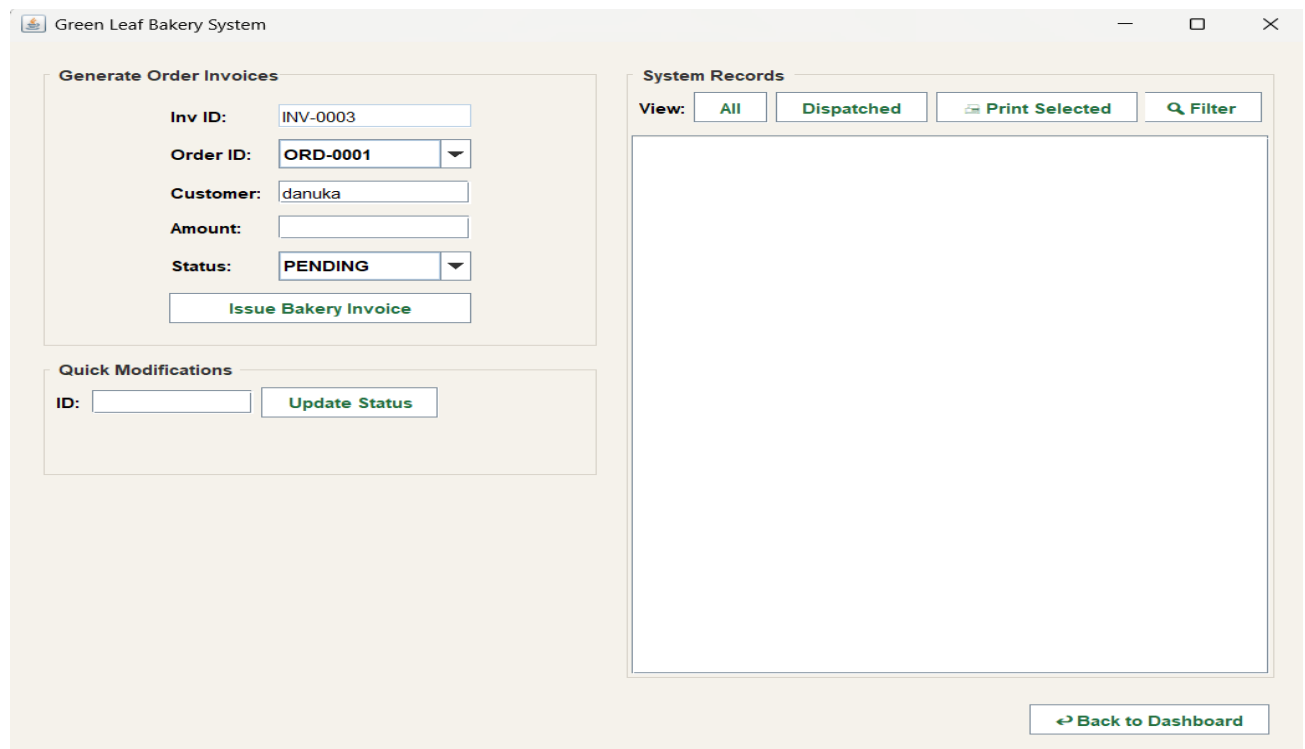

03	Kitchen Limits: Cakes: 750 Breads: 240 Pastries: 289 
----	--

This panel shows the how many bakery items can be make with exiting stock. This panel directly Connected to the baker. Therefor baker change something this panel automatically update that.

04. Invoice CRM

If manager go to this option. Manager can :

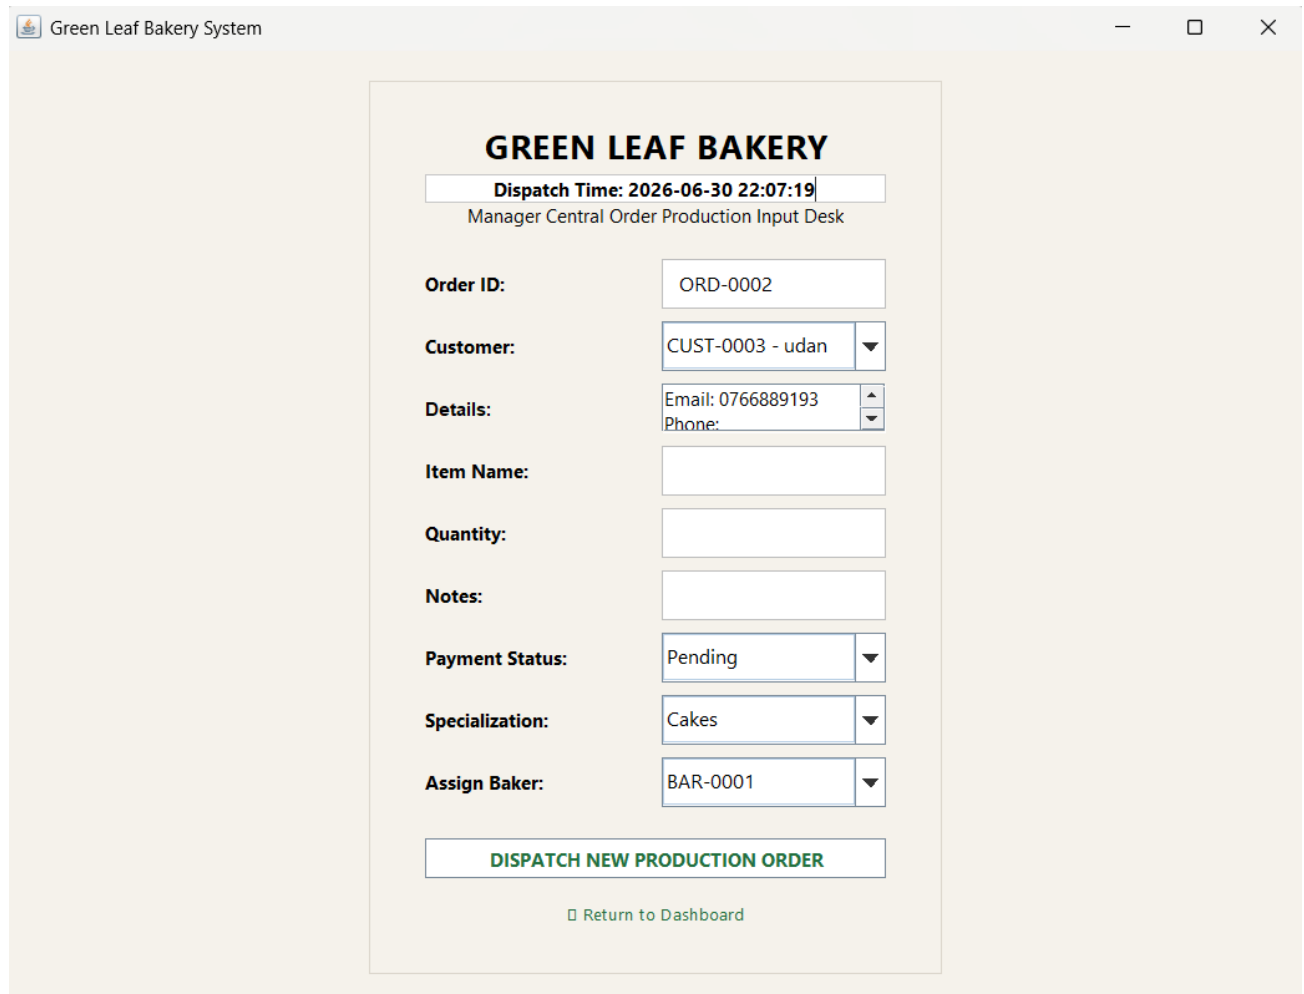

- Generate Invoice
- Update pending Invoice to paid
- Dispatched the paid orders.
- Print selected Invoice.
- Search Invoice by invoice id

The screenshot displays the 'Green Leaf Bakery System' interface. On the left, the 'Generate Order Invoices' panel contains input fields for 'Inv ID' (INV-0003), 'Order ID' (ORD-0001), 'Customer' (danuka), 'Amount', and 'Status' (PENDING), along with an 'Issue Bakery Invoice' button. Below this is a 'Quick Modifications' section with an 'ID' field and an 'Update Status' button. On the right, the 'System Records' panel features a 'View' dropdown set to 'All', buttons for 'Dispatched', 'Print Selected', and 'Filter', and a large empty table area. A 'Back to Dashboard' button is located at the bottom right.

05.Sytem Order Desk

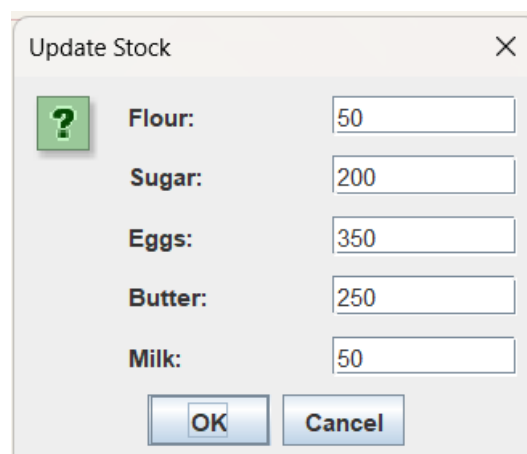

If manager go to this option. Manager can create a new Order and assign that order to a suitable Baker. Manager can select the Baker section and see that selected section registered bakers and after that manager can assign the order by clicking the **DISPATCH NEW PRODUCTION ORDER** button.

The screenshot shows a web application window titled "Green Leaf Bakery System". Inside, there's a form titled "GREEN LEAF BAKERY" with a subtitle "Manager Central Order Production Input Desk". The form includes a "Dispatch Time" field showing "2026-06-30 22:07:19". Below this, there are several input fields and dropdown menus: "Order ID" (ORD-0002), "Customer" (CUST-0003 - udan), "Details" (Email: 0766889193, Phone:), "Item Name", "Quantity", "Notes", "Payment Status" (Pending), "Specialization" (Cakes), and "Assign Baker" (BAR-0001). At the bottom of the form is a large green button labeled "DISPATCH NEW PRODUCTION ORDER" and a smaller link labeled "Return to Dashboard".

06.Manage Stock

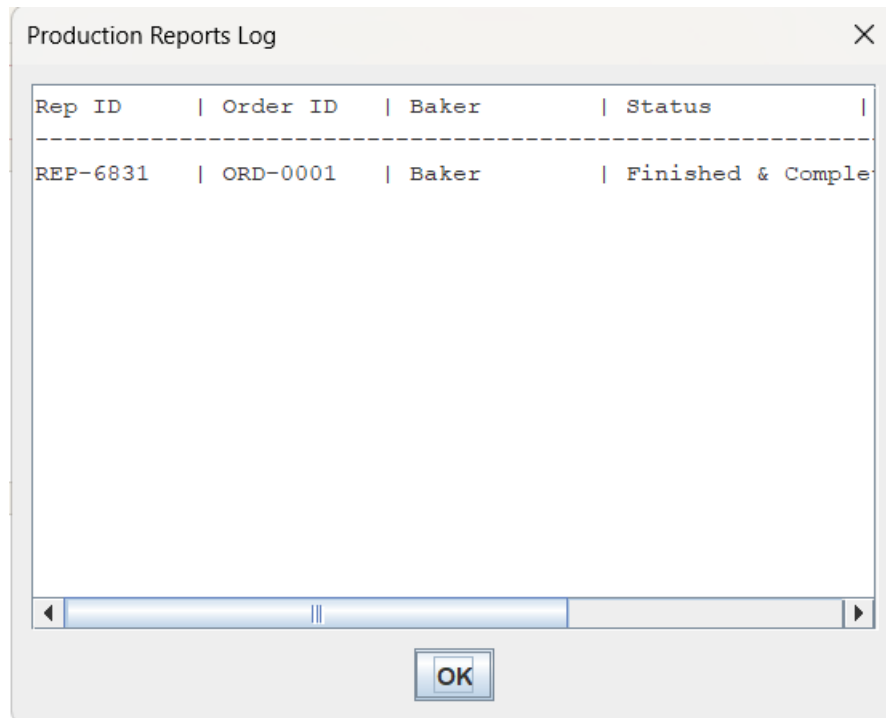

If manager go to this option. Manager can easily change the Ingredients stock by changing the stock management sheet and clicking **OK** button.

The screenshot shows a dialog box titled "Update Stock". It contains a green question mark icon and five input fields for ingredients: "Flour" (50), "Sugar" (200), "Eggs" (350), "Butter" (250), and "Milk" (50). At the bottom of the dialog are "OK" and "Cancel" buttons.

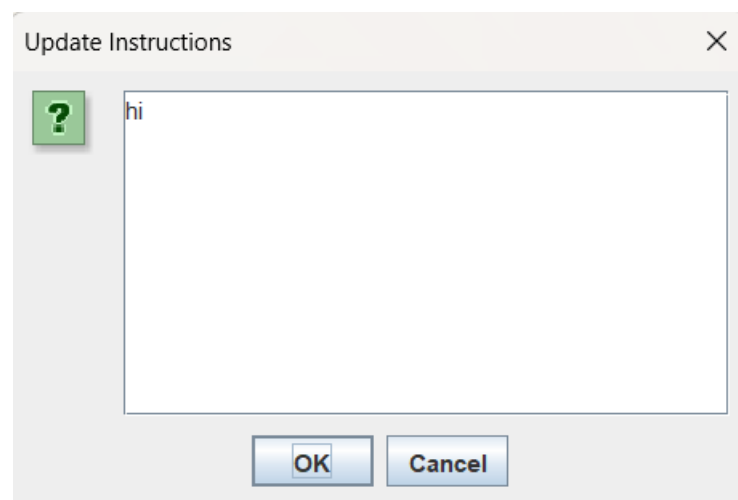

07. Production Reports

If manager go to this option. Manager can see all the finish Orders from every Baker. The making process is over in Kitchen baker need to submit a report .If the baker is submit the report then this panel is automatically update and show the finished order. There for manager can Dispatch that order to customer.

08. Daily Instructions

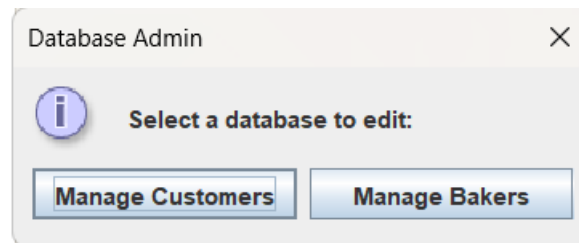

If manager go to this option. Manager can send **Messages** to staff dash boards by simply type the Message in the space and clicking the **OK** button. There for this option made communication so easy with in the Bakery and improving the productivity.

09. Manage Database

In this option there is a 2 different databases. There for Manager need to select one of them. The 2 Data bases are :

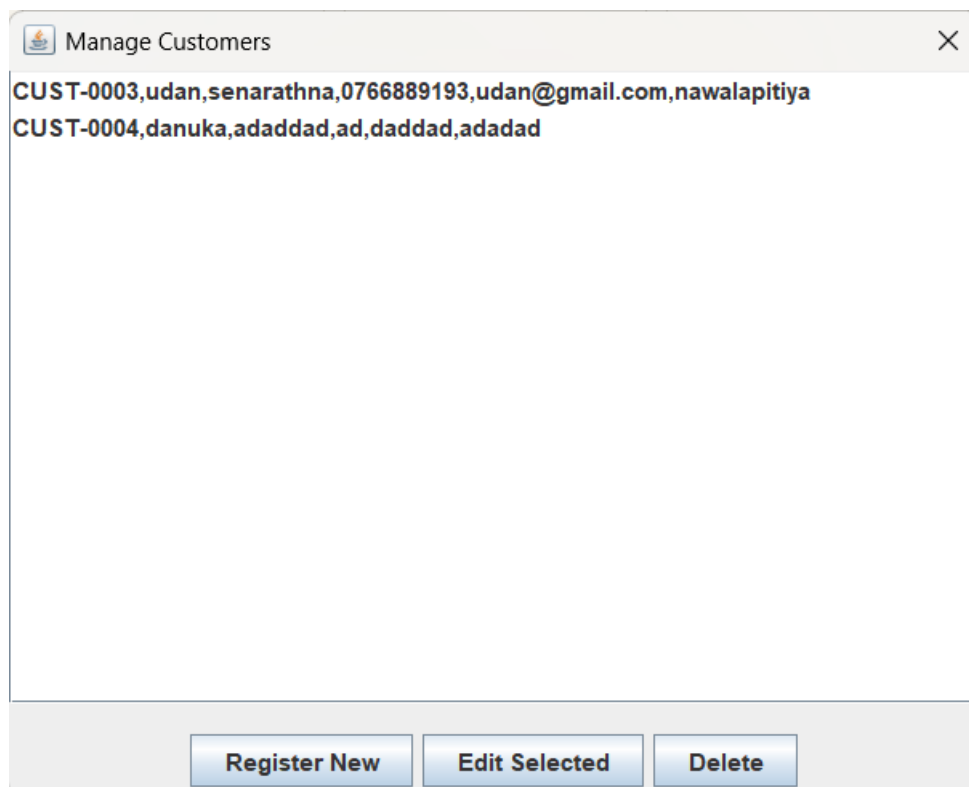

1. Manage Customer
2. Manage Baker

1. Manage Customer

If manager select this Database Manager can :

- Register new Customer
- Edit the Customer details
- Delete the Customer

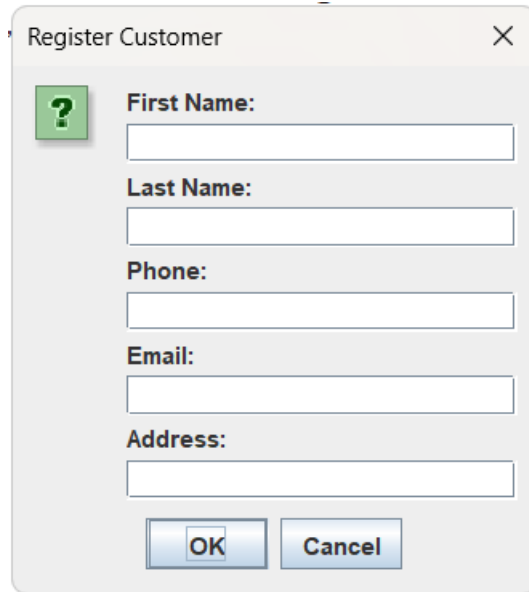

- *Register new customer*

1. Go and click **Register New** button.

2. Add the requested details in the Form.

A dialog box titled "Register Customer" with a close button (X) in the top right corner. On the left side, there is a green square icon containing a white question mark. The form contains five labeled input fields: "First Name:", "Last Name:", "Phone:", "Email:", and "Address:". Each label is followed by a white rectangular text box. At the bottom of the dialog, there are two buttons: "OK" and "Cancel", both with blue gradients and black borders.

3. After that click the **OK** button to register the customer.

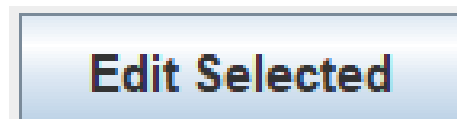

- *Edit Customer Details*

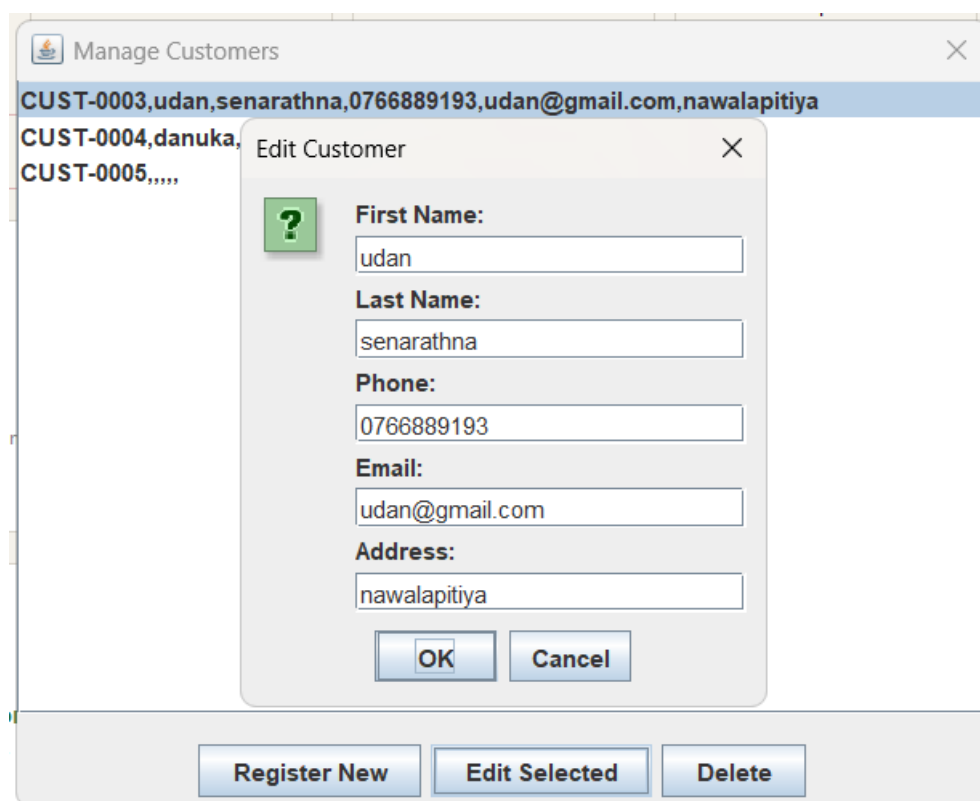

1. Select the Customer details that you want to edit.

2. Go and click **Edit Selected** button.

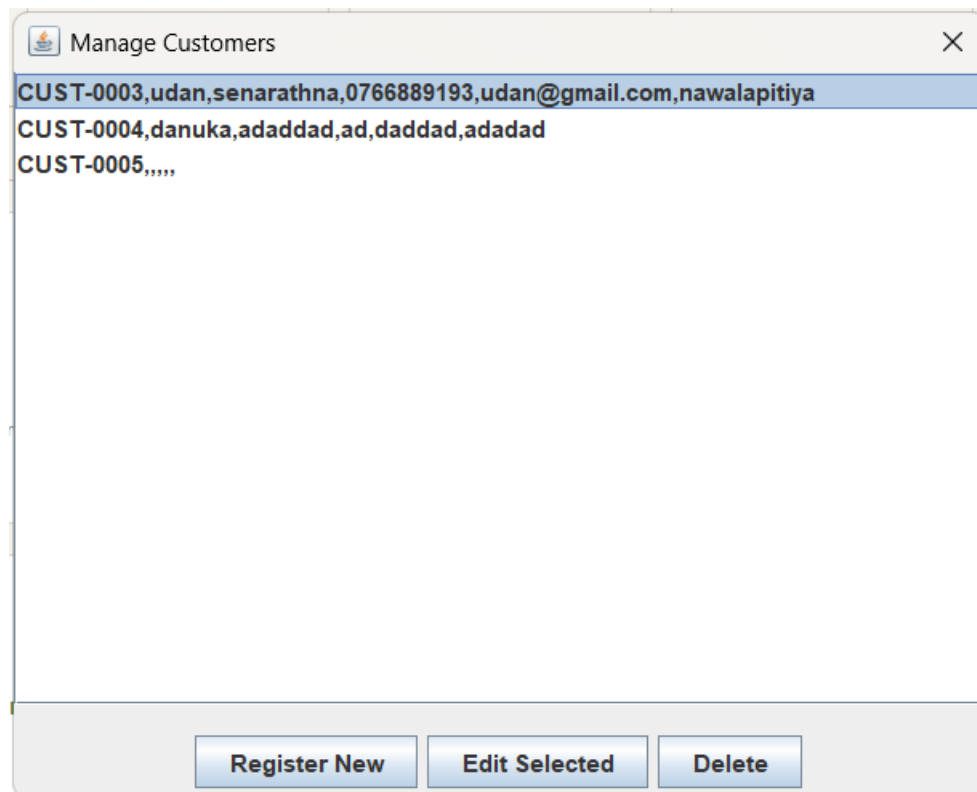

3. Change the details and click **OK** button .

- *Delete Customer*

1. Select the Customer details that you want to Delete.

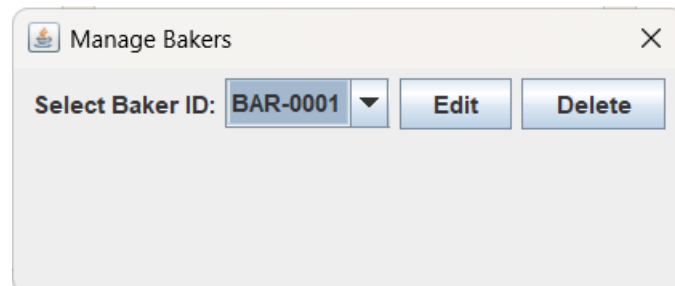

2. After that click the **Delete** button .

2. Manage Baker

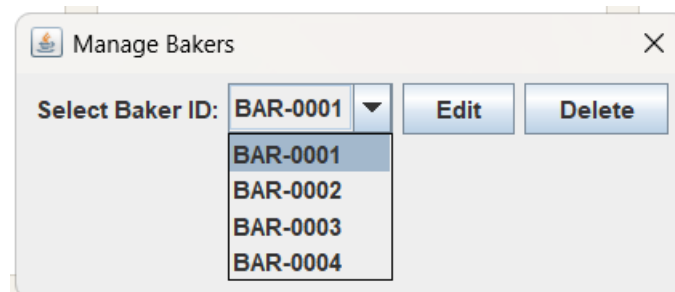

If manager select this Database Manager can:

- Edit the Baker details
- Delete the Baker Accounts

- *Edit Baker Details*

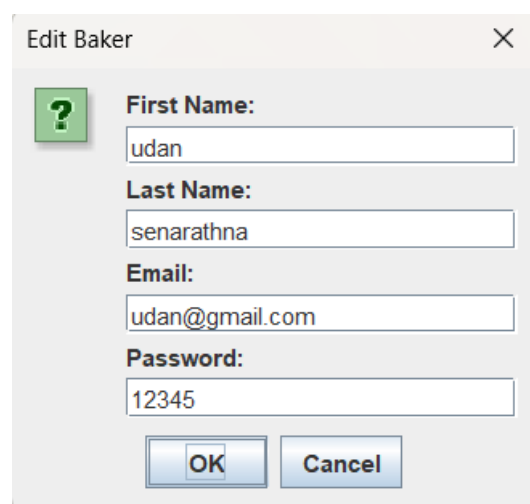

1. Select the Baker ID in Drop down list.

2. Click the **Edit** button.

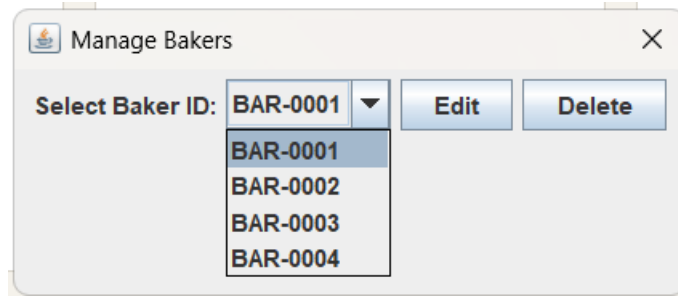

3. Fill the details and click **OK** button.

- *Delete The Baker Account*

1. Select the Baker ID in Drop down list.

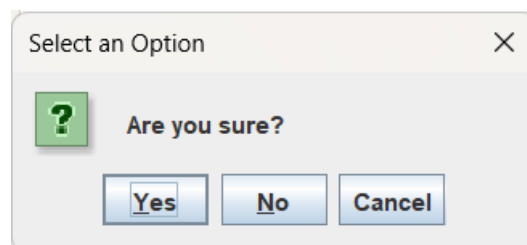

2. Click the **Delete** button.

3. That's it.

10. End Work Session

This button work as logout for the manager dash board. If the manager click this the conforming tab show up "Are you sure ?" after that if you click **YES** you will logout. If you click **NO** or **Cancel** you don't logout form the system.

9. Baker Dash Board

This is the Baker personal Interface. This interface handle the preparing baker reports, set limits to the products based on the stock and extra.

The screenshot shows the Baker Dashboard in light mode. The interface includes a header with the title "GREEN LEAF BAKERY" and two buttons: "Dark Mode" (labeled 01) and "Refresh Station" (labeled 02). Below the header, there are three main sections: "Manager's Daily Instructions" (labeled 03) with a text input field containing "hi", "Your Active Orders" (labeled 04) with a large empty box and the text "All orders completed!", and "Baking Station Report" (labeled 05) which contains a form with fields for Report ID (REP-7693), Order ID, State (Baking Process Started), Flour (g), Sugar (g), Eggs (qty), Time (min), Quality (Good), and Notes. Below the form are three buttons: "Submit Progress Report", "Update Capacity Limit" (labeled 06), and "View Ingredient Stock" (labeled 07). At the bottom of the dashboard is a "Logout" button (labeled 08).

01.Dark mode

Baker can easily change the system theme by clicking this button. If manager click this button the system automatically change the theme into **dark mode**.

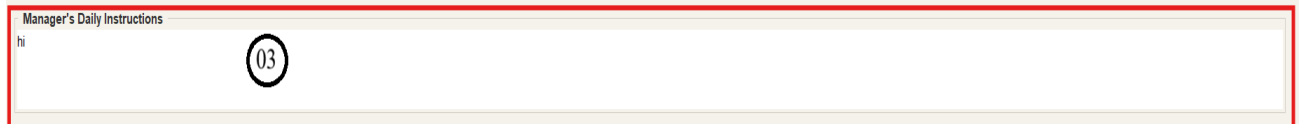

The screenshot shows the Baker Dashboard in dark mode. The interface is dark-themed with white text and buttons. The header includes the title "GREEN LEAF BAKERY" and two buttons: "Light Mode" and "Refresh Station". Below the header, there are three main sections: "Manager's Daily Instructions" with a text input field containing "hi", "Your Active Orders" with a large empty box and the text "All orders completed!", and "Baking Station Report" which contains a form with fields for Report ID (REP-7693), Order ID, State (Baking Process Started), Flour (g), Sugar (g), Eggs (qty), Time (min), Quality (Good), and Notes. Below the form are three buttons: "Submit Progress Report", "Update Capacity Limit", and "View Ingredient Stock". At the bottom of the dashboard is a "Logout" button.

02. Refresh Station

If the Baker click the **Refresh Station** button. Baker dash board will automatically reset. There for if manager assign new task or send new instructions it will appear in the baker dash board.

03. Manager's Daily Instructions

This section work as a display to the Manager's daily Instructions. If manager send a new instructions this section will show it but most importantly baker need to click the **Refresh Station** button because this section do not automatically updated.

04. Your Active Orders

This section work as a display to the all the assigns orders for the baker. If manager assigns a new order to the baker ones the baker click the **Refresh Station** button it will appear in this section.

If the assign order is finish and baker submit the progress report to the manager under the that order id after that automatically that order will disappear in this section.

05. Baking Station Report

This section is the Report preparing sector in baker dash board. There for baker need to fill what is the baking state, how much Flour, Sugar and Eggs are used to make this product and how much time it's get to finish the product and extra. After that baker need to click the **Submit Progress Report** button. There for manager can see the report and decide the price. After that that order Id is automatically disappear in **Your Active Order's** section.

Baking Station Report

Report ID:

REP-7693

Order ID:

State:

Baking Process Started

Flour (g):

Sugar (g):

Eggs (qty):

Time (min):

Quality:

Good

Notes:

Submit Progress Report

06. Update Capacity Limit

With this option Baker can see the stock and say to the manager how much products can we do with this stock in hands. Baker can simply do that by clicking **Update Capacity Limit** button and change the details in form and clicking the **OK** button.

Update Stock

?

Flour:

50

Sugar:

200

Eggs:

350

Butter:

250

Milk:

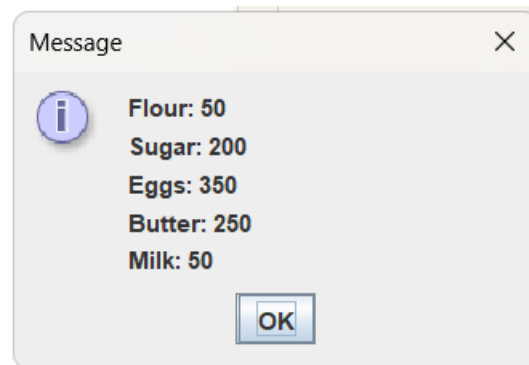

50

OK

Cancel

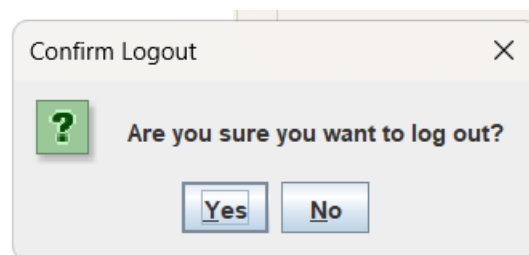

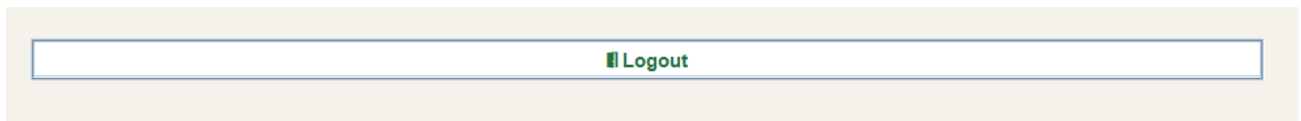

07. View Ingredient Stock

With this button baker can see how much Ingredients are store in the store. And after that baker can say how much products can make with that stock to the Manager there for Manager can stop the over stacking the orders that cannot be produced.

08. Logout

This button work as logout for the manager dash board. If the manager click this the conforming tab show up “Are you sure ?” after that if you click **YES** you will logout. If you click **NO** you don’t logout form the system.

10. Data Storage

The system stores all application data in text (.txt) files. This approach provides a simple and lightweight method of data storage without requiring a database management system. The application automatically create, reads and updates these files whenever changes are made. The .txt files are :

- baker.txt
- customers.txt
- instructions.txt
- invoices.txt
- logins.txt
- manager.txt
- orders.txt
- preparation_reports.txt
- production_capacity.txt
- stock.txt

11. Error Handling

The system includes basic validation to prevent invalid data entry and unauthorized access. Users are notified with informative error messages whenever required fields are left empty, invalid information is entered, or an operation cannot be completed successfully.

12. Troubleshooting

If users encounter problems while using the system, they should first verify that Java is installed correctly and all project files are available. Restarting the application or checking the data files may resolve common issues. If the problem persists, users should contact the system administrator.

13. Frequently Asked Questions (FAQ)

This section answers common questions regarding installation, login issues, data management, and system usage. It provides quick solutions to frequently encountered problems, reducing the need for technical support.

14. Conclusion

The Green Leaf Bakery Management System provides a reliable and user-friendly solution for managing bakery operations. By automating essential business processes, the system improves efficiency, reduces manual errors, and enhances overall productivity. This user manual serves as a comprehensive guide to help users effectively operate and maintain the application.
